

CORDEK® PROTECTION SHEET

THE PROVEN WAY TO PROTECT DURING CONSTRUCTION AND RENOVATION

CORDEK®

TEMPORARY PROTECTION THAT IS COST-EFFECTIVE

CORDEK® - PROTECT AT THE BEGINNING, SAVE AT THE END

Why take a chance that floors, walls, fixtures and other important items may get damaged during a project? Protect with CORDEK® and save the time and expense of having to fix items that get damaged due to lack of protection.

CORDEK® is a fluted polypropylene protection sheet. In Europe, it has become the industry standard for temporary protection during construction and renovation projects where it is known as Correx and exclusively sold to the construction industry by Cordek, Ltd.

Why is Cordek so popular? Because no other protection product possesses CORDEK's combination of durability, flexibility, ease of use, and low cost.

CORDEK® - PROVEN ADVANTAGES

CORDEK® has numerous advantages over traditional wood, fiber, and pulp-based products such as hardboard, fiberboard, and plywood.

CORDEK® is:

- Tough, durable, and impact resistant
- Lightweight and easy to position
- Simple to cut, crease, and curve
- Waterproof and chemical resistant
- Easy to handle and store on job sites
- Easy to attach with tape or fasteners
- Competitively priced

SIZES AND GRADES

CORDEK® is available in a variety of thickness (3mm to 10mm), dimensions, and colors. The standard sheet has the following characteristics:

- Sheet size: 4' x 7'
- Thickness: 3 mm (1/8 in)
- Weight: 2 lbs
- Color: Clear

Flame retardant and anti-static grades are also available for sensitive applications.

USE CORDEK® TO ADVERTISE YOUR BUSINESS

CORDEK® can be printed with your company logo and information, a proven and effective way to advertise your business. Please contact us for more information about the details and cost of our printing services.

PREVENT WASTE - USE CORDEK®

It is often possible to reuse CORDEK® several times, depending upon the application. If no longer needed, CORDEK® can be recycled at one of several recycling facilities across the country.
